MARSILIANA D'ALBEGNA PROJECT (MANCIANO, ITALY)

7th RESEARCH CAMPAIGN

AUGUST 31 - OCTOBER 30, 2009

The 2009 Research Campaign provides the following activities: **1.** *Excavation of an Etruscan production site (kiln?), located near the Albegna river.* **2.** *Continuation of the excavation in the "Casa delle Anfore", a peripheral residence with central atrium (6th - 5th century B.C.).* **3.** *Continuation of the survey within Corsini's Estate.* Students of Archaeological Science, graduates in Archaeology, etc. and volunteers (provided that they are of legal age) are invited: activities in the field and in the laboratori imply a commitment of 40 hours weekly, certified with a certificate valid for the issue of formative credits (for University and High School). All organizational and logistical aspects are under the direction of Etruria Nova not-for-profit: participants require the certification of tetanus injection, and the annual membership fee, insurance included.

Participation fees:

- 1 week - **80** Euro + membership card
- 2 weeks - **150** Euro + membership card
- 3 weeks - **200** Euro + membership card

Price includes:

Full board and lodging, transfer by car, workshops and excursions. Participants are housed in the holiday farm house "La Speranza", situated in Marsiliana d'Albegna, in flats with 4 or 5 beds, with independent kitchen and bath, air conditioning and heating, soccer field and swimming pool available.

Annual membership card, insurance included:

- **20** Euro (ordinary member)

"Casa delle Anfore" in Poggio Alto: one of the rooms ongoing excavation.

Grave circle Brizzi 2 in course of excavation at Piani di Perazzeta, and in the inset some objects of the kit after restoration.

Holiday farm house "La Speranza" at Marsiliana d'Albegna.

Chambers tomb 315, identified with the Survey, during the cleaning up, and in the inset a recovered fibula.
